

# FP Liftomatic® for large screen displays

**Audipack®**

*It's great to have solutions...*

Transport & unloading mode

Removing the FP Liftomatic from the flightcase

Ready for indoor transport with internal wheel system

Retracted wheels, ready for presentation or lifting

Presentation in landscape position

Pivoting the flatpanel

Presentation in portrait position

# FP Liftomatic, presenting without personal lifting

## Anything is possible with Audipack!

Do not bother lifting large screens by hand or with hoists.

Save your equipment by using the Audipack Liftomatic flat panel lifting range.

### The product

The Flat Panel Liftomatic provides an all in one transport and presentation solution for large plasma, LCD and LED screens up to 120 inch. The complete set (exclusive flat panel) can be delivered in a optional famous Audipack flightcase, including the lift system for your flat panel.

By simply opening the front of the flightcase, and activating the integrated wheel system, the FP Liftomatic raises it self from the case.

Just pull out the FP Liftomatic inclusive the screen by hand.

The unique transport mode of the lift system allows a linear movement, and makes it possible to change the position of your flat panel. When the system is lowered it is free to lift the screen up for starting your presentation in landscape or portrait mode.

### Benefits:

- ▲ One man floor operation
- ▲ Invisible lift mechanism
- ▲ Neat design
- ▲ Electrical or manual retractable wheels
- ▲ Available in other presentation heights

### Technical specifications:

Primary power supply	230 VAC 50-60 Hz
Presentation height (centre screen)	2110 mm
System dimensions	1364x861x1808-1992
System weight	225 Kg.
Max. lift capacity	250 kg

Key issue is a quick and safe unloading from the flightcase.

Manage the flat panel cables with the integrated AV cable management chain.

The standard incorporated landscape-portrait rotation utility is lockable and is free to set it to left or right orientation.

In case of power failure, the standard applied levers offer a manual emergency operation.

## ***Below shown accessories are used to enhance practical use and to personalize your product***
